

OUR WORLD

The sky is so blue
The grass is so green
The sun is shining
And everyone seems happier
What has happened
Am I in a dream

The birds are chirping
The bees are buzzing
The flowers are blooming
As I go outside, I catch my breath
From the smell of the flowers
In the air that's so fresh

There are no cars on the road
People are out walking and cycling
As I go for a walk down by the river
I hoped this day could last forever
The river is as clean as I've ever seen
There's more fish now than has ever been

No more pollution only solutions
We all have a voice
Let's make a good choice
For our planet is precious
Please be aware and make a change
